“From the start, HPE has been a good candidate for this project and since we partnered with them our relationship has become even stronger.”

– GAVRIEL MAGILNER
PRIVATE CLOUD MANAGER
BEZEQ INTERNATIONAL

THOUSANDS OF CHILDREN RELY ON LEARNING DELIVERED BY HPE SYNERGY

Bezeq International (BI) is considered Israel’s leading internet service provider with the market’s highest growth rate.

USE CASES

- Support a national education cloud that covers 4,000 schools
- Maintain 2,000 virtual machines
- Keep pace with growing customer demands

REQUIREMENTS

- Implement a powerful and agile cloud platform
- Deliver the performance, capacity, and efficiency required by critical educational workloads
- Back the solution with efficient support

SOLUTION

BI won a Ministry of Education contract to manage the education cloud that now runs on HPE Synergy, the ideal platform to meet both current and future needs.

OUTCOMES

- Deliver a dependable platform for the current and future education needs
- Deliver enhanced performance that is secure, easy to manage, and adaptable
- Provide online learning for thousands of children
