IT CONSULTANT  
CARANTE GROEP

## FLEXIBILITY TO DELIVER SPECIALIZED PATIENT CARE

Carante Groep is a nationwide network of specialized care providers in the Netherlands.

### USE CASES

- Respond to the needs of caregivers and clients with e-health, IoT, and administrative services
- Assure access to medical records and treatment plans, and proper reporting to obtain funding
- Adopt cloud for some services, like Office 365
- Serve 2,000 virtual desktops for caregivers and staff

### REQUIREMENTS

- Centralize IT services to gain more efficiencies as the organization grew
- Run approximately 80% of workloads on-premises and 20% in the cloud
- Flexibility to virtualize compute, storage, and networking

### SOLUTION

Carante Groep is leveraging HPE Synergy composable infrastructure to build a software-defined data center for simpler, more agile IT.

### OUTCOMES

- Place workloads on-premises or in the cloud more easily
- Allow to easily scale as needed
- Gain insights into resource utilization and help forecast future requirements
- Focus on delivering the best services possible for caregivers and clients
