

“By lowering our capital expenses with HPE GreenLake, we reduced total cost of ownership by about 35%, providing YF Life with a three-year return on investment.”

— **DARYL CHENG**
SENIOR VICE PRESIDENT—
MIS, YF LIFE INSURANCE
INTERNATIONAL LTD

→ EXPLORE DIGITAL GAME CHANGERS

INNOVATING TO DRIVE VALUE AND GROWTH

For a fast-moving FinTech company like YF Life, the future of insurance and wealth management comes knocking almost every day. By deploying IT as a service, it gained the ability to create new solutions to support policyholders, deliver digital tools to help consultants and business partners, as well as to better serve existing customers and expand its client base.

OBJECTIVES

- Launch a next-generation core policy administration platform
- Develop new products and services, and drive process efficiencies
- Meet strict regulatory compliance requirements and data sovereignty laws

REQUIREMENTS

- Consume resources as needed to support business demands
- Deliver cloud-like agility with pay-per-use economies and on-premises control
- Control, design, and enforce internal cybersecurity policies

SOLUTION

- HPE GreenLake
- HPE Synergy
- HPE 3PAR
- HPE OneView
- HPE GreenLake Central
- HPE Pointnext Consulting Services

OUTCOMES

- Reduces TCO by about 35%, providing a three-year ROI
- Supports new electronic insurance policy solutions and other innovative offerings
- Gains a clearer picture of the IT expenses utilized by each project
