Speeding up delivery of healthcare services

San Vicente Fundación Hospital has extensive experience in complex patient care and is recognized for serving Colombia’s high-risk populations. Using an integrated care model, the hospital prioritizes getting data into the hands of care providers to expedite decision-making. Now with close to 100% uptime and query times improved by 60%, the hospital can accelerate diagnoses, which translates into better overall patient care.

Objectives

- To improve patient care by improving data availability
- To adhere to evolving data protection regulations
- To enable IT and administrative efficiency

Requirements

- To implement a reliable, more performant IT infrastructure
- To reduce query time for patient care and administration tasks
- To avoid major infrastructure investment with flexible billing

Key partners

- Team IT

Solution

- HPE GreenLake cloud services
- HPE ConvergedSystem 500 for SAP HANA® Scale-out Configurations
- HPE Synergy
- HPE 3PAR
- HPE StoreOnce with Veeam backup
- HPE ProLiant DL360 servers
- HPE StoreEver MSL6480 tape library
- HPE OneView
- Transformation services for SAP HANA
- HPE Education Services
- Advisory and Professional Services

Outcomes

- Accelerates diagnoses with real-time data
- Improves user experience—query time is 60% faster
- Enables efficiency and scalability without additional headcount
