PORTS OVERVIEW

Before operation, please note each ports and LED of this router.

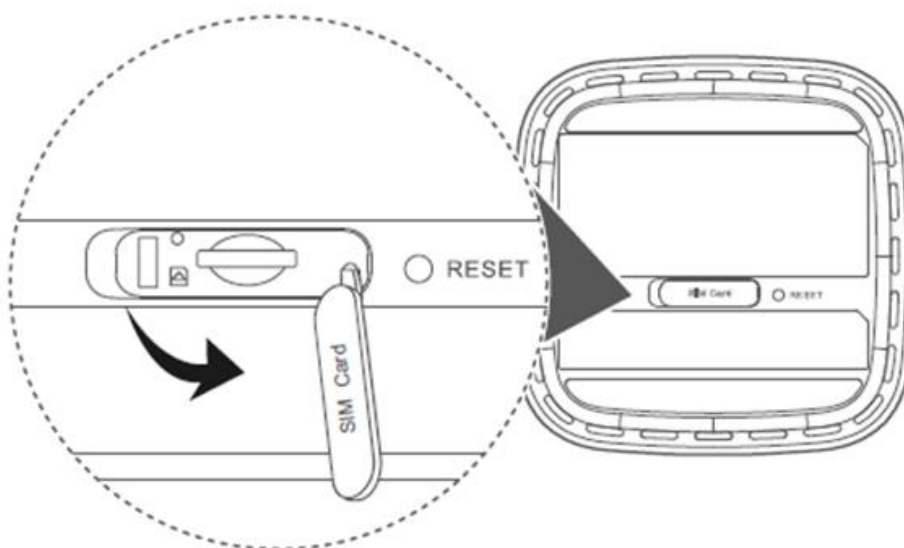

HOW TO CONNECT THE CPE

1> Prepare a Nano SIM card.

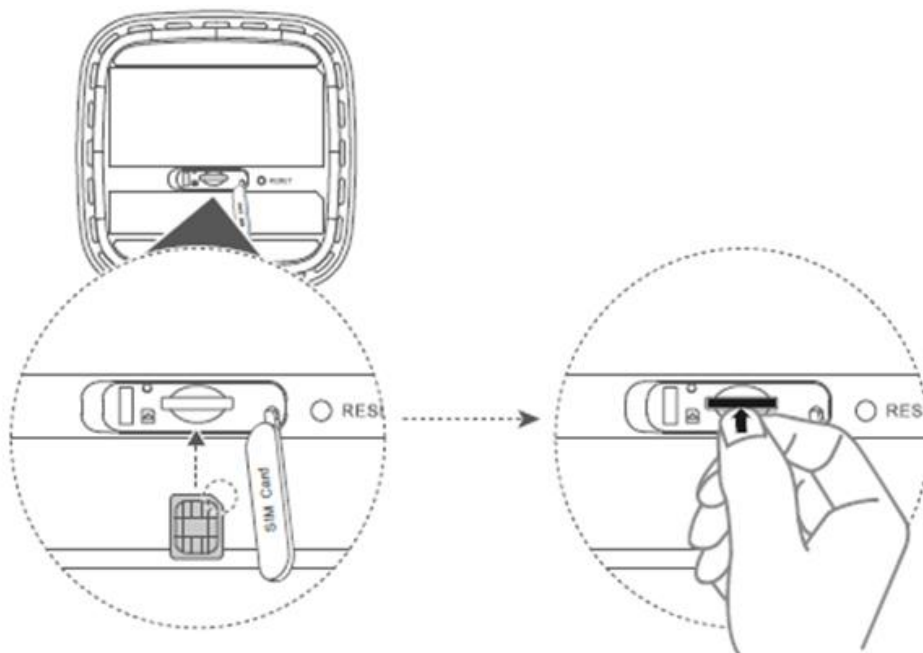

2> Open the SIM cover.

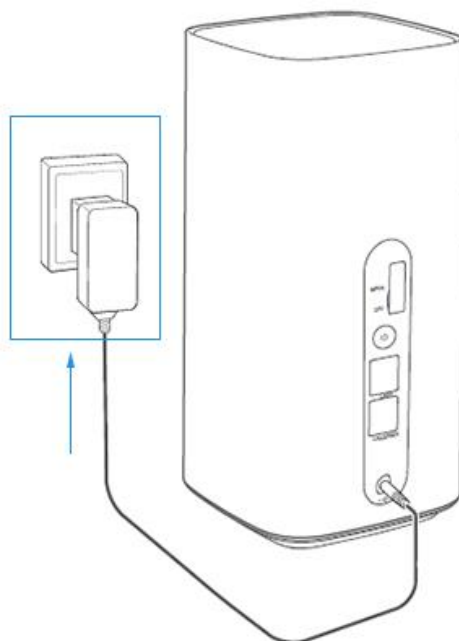

3> Insert SIM card follow below direction.

Pls note: Pls don't insert or Remove SIM card when the router Power on/working.

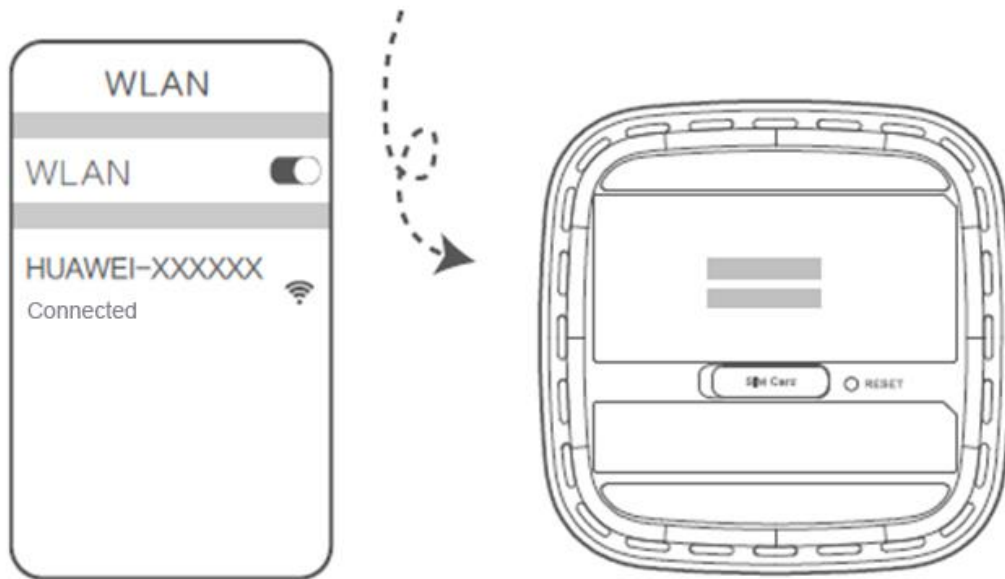

4> Connect the power.

5> Connect your device with router.

If device is computer, connect with RJ45 cables.

You can find WiFi name in the bottom of the router. No password default.

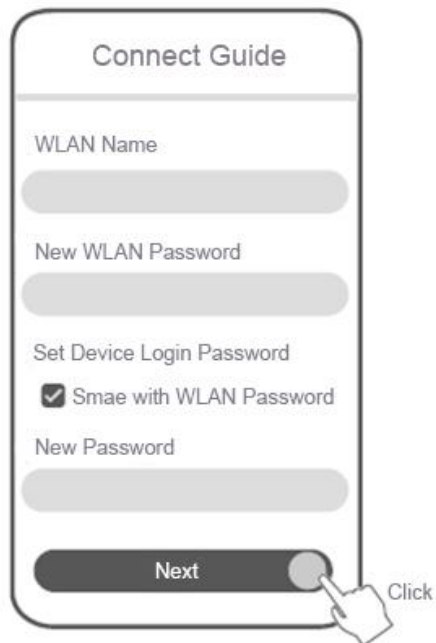

6> Open browser.

If the page doesn't switch auto. Pls put "192.168.8.1"

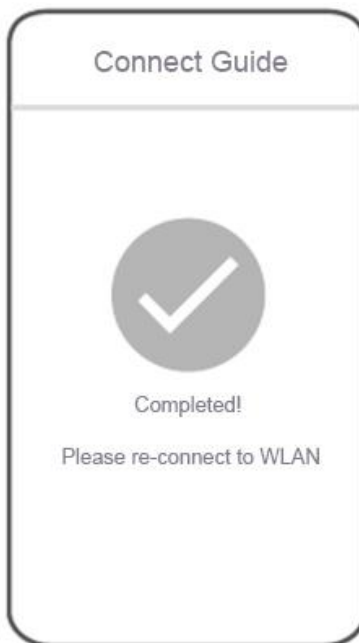

7> Set the WLAN Password.

The image shows a mobile application screen titled "Connect Guide". It contains several input fields and a button. The fields are labeled "WLAN Name", "New WLAN Password", "Set Device Login Password", and "New Password". The "Set Device Login Password" field has a checked checkbox labeled "Smae with WLAN Password". At the bottom, there is a dark button labeled "Next". A hand icon is pointing at the "Next" button, with the word "Click" written next to it.

8> After finish setting, Re-connect the WLAN.

FAQ
